Office hours: Tuesday/Thursday: 3:40 - 4:00

Course Description:

In Math for College Success (SAT), we will be covering a variety of topics. The semester will consist of practice tests, math skills quizzes, and activities which will be worth either a homework, quiz or test grade. We will check answers, but students will not be deducted for wrong answers on practice tests. Majority of Math for College Success (SAT) will be participation grades.

This course includes a study of the SAT Math exam, math strategies, arithmetic skills and concepts, algebraic Methods, word problems, geometric concepts and reasoning, special problem types, algebra II methods.

Prerequisites:

Algebra I, Algebra II, and Geometry

Turnitin.com:

Students will be required to complete, at least, one writing assignment per quarter. All writing assignments will be submitted through turnitin.com.

Class ID: 15862009

Password: Math
